ALUMNI INTERACTION SESSIONS

PRE-PLACEMENT TRAINING SESSIONS

BCIIT has a strong association with companies who frequently visit the institute for campus placements, also known as campus recruitments. They conduct screening sessions for our outgoing batches, interview them and hire promising candidates for their distinguished companies. Placement and training programs are continually offered to students that play a crucial role in strengthening and developing their skill sets.

Our placement and training programs bridge the gap between our students and the companies that visit our campus. We organize mock interviews and workshops to not only identify the talent but help them work on their shortcomings. We also help sharpen their aptitude knowledge so that they are prepared for any similar tests in the competing industry. Mock aptitude tests organized during the program to brush up their analytical and logical skills. Besides, candidates are also trained to exhibit exceptional communication skills so that they are well adept to present their thoughts to the recruiters. Thus, the experts in the Training and Placement Cell ensure that the students leave their best impressions on prospective employers.
